

LISBON NEWS.

Lisbon, Aug. 24.—The farmers have commenced to pull fodder, cut hay and pick peas. The indication looks like we may get rain today or tomorrow. The cotton is suffering in no small degree. There is no help for corn that was planted so late in the season. The farmers did not get through work, but were forced to stop hoeing and plowing to do other work. We can't figure much on our cotton crop right at this time, from the fact that we see so little that we can bank on. However, we will have to do the best we can, and trust to providence.

Mr. L. E. Corbett has bought another car.

edy that makes millions of corn-pestered people happy, and that's "GETS-IT". Apply it in 3 seconds. It dies. Some people jab and dig at their corns with knives and razors—wrap their toes in packages with bandages or sticky tape, make them red and raw with salves. Nothing like this with "GETS-IT". Your corn loosens—your lift it off. There's nothing to press on the corn or hurt. Angela couldn't ask for more. Try it tonight on any corn, callus or wart. "GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

The fourth reunion of the Patterson family was held August the 21th, at the Robin Patterson spring. Patterson; music by Mr. Lawrence Poole; minutes of last meeting read by secretary. Resolutions on Mrs. Maymelle Langston Dobbins, the only member who has died since our last meeting were read by Mrs. R. M. Duckett. During the past year there have been ten births in the family and one marriage. Miss Nita Hunter to George Anderson. We now have an enrollment of 319. One hundred and nine members answered to the roll call and there were twenty-two friends of the family present, the largest attendance we have ever had.

The recitation "Jesus Lover of My Soul" by Miss Maggie Dee Curry was well rendered and enjoyed very much.

Maxwell

\$595

F.O.B. DETROIT

Maxwell motor cars have demountable rims and the same size tires on both front and rear wheels.

REMEMBER these important features, because they are not to be found on some of the lighter cars.

Maxwell cars have 3 1/2 in. tires all around. This is a generous size. The tires are not overtaxed. They last longer and make riding easier.

Tires of one size mean that you have to carry only one size casing and one size tube.

Demountable rims, of course, are recognized as the best. They are on all good cars. Don't buy any car without demountable rims. If you do, you'll regret it.

These two features—along with the other complete and up-to-date equipment; the economy and proved endurance of the Maxwell, make it the greatest automobile value in the world today.
